

# EAPA MEMBERSHIP APPLICATION

EAPA has two types of membership:

## MEMBERS

Members are national umbrella associations with a registered office in Europe and whose members are concerned with the production of asphalt and/or the construction or maintenance of asphalt roads.

## ASSOCIATE MEMBERS

Associate members are individual companies which are concerned with the production of asphalt and/or the construction or maintenance of asphalt roads, whose registered offices are in a European country  
or  
individual companies which are concerned with the production of bitumen (or bitumen additives) or the operation of mines or quarries or the manufacture of equipment and/or mixing installations.

The full definitions of Members and Associated Members can be found in the EAPA statutes.

The costs of a (full) membership depend on production of the members of the national association. The costs of the Associate membership depend on the type of company.

Please contact the EAPA secretariat ([info \(at\) eapa.org](mailto:info@eapa.org)) for more details about the membership, the membership fees, the EAPA statutes and the procedure for becoming a member.  
Click here for downloading the EAPA Brochure "The Trusted Voice of the Asphalt Paving Industry in Europe"

Benefits of being member of EAPA:

1. Being represented in Europe / Brussels
2. Being aware of coming legislation and regulations
3. Having your voice heard in Brussels / Europe
4. Participation in platform to exchange information and best practices
5. Being informed about new developments, TC and HSE issues
6. Being connected to the rest of the world
7. Horizontal co-operation
8. Benchmark you position against other associations/countries
9. Influence the strategy for the future
10. Using the leverage effect (leverage = value / actual costs) by working together in health studies and research projects
11. Being ready for the future
12. Define goals and objectives and make things happen
13. Gaining access to experience and knowledge
14. Avoiding duplication of efforts
15. Access to a pool of international colleagues
16. Contacts among EU colleagues
